

AI Product Buzz Feed

Warm welcome visual for AI Product Buzz Feed

The feed that feels like a good late-night scroll.

This project is built for people who want to stay on top of AI products without feeling buried under hype.

It gathers new launches, tracks the buzz, and turns everything into a clean, ranked feed that is easy to skim and hard to ignore.

What you get

- A clear view of what is gaining attention
- A simple ranking system based on engagement
- A lighter, more human way to discover new products

Why it is cool

It is not just another list. It is a signal-based discovery experience.

You get the feeling of:

- “Oh wow, this is interesting”
- “Okay, this one is actually popping”
- “I need to know more about that”

Quick start

```
npm install  
npm run dev
```

Open <http://localhost:3000> and let the feed do its thing.

Stack

- Next.js
- TypeScript
- Supabase
- Vitest

Tiny philosophy

Less noise. More curiosity.

AI Product Buzz Feed

A calm and aesthetic welcome image

Scroll less. Notice more.

This project is your soft landing space for the AI world.

Instead of chasing every launch and headline, it brings together the products that seem to be picking up real momentum and shows them in one clean, easy-to-browse feed.

The idea

It is built for curious people who want to stay in the loop without getting buried in hype.

You get:

- a focused view of fresh AI products
- ranked buzz based on engagement
- a smoother, more satisfying discovery experience

Why it feels good

Because it turns noise into something that feels almost effortless to explore.

You are not reading a giant manual. You are just drifting into the interesting part.

Get started

```
npm install  
npm run dev
```

Stack

- Next.js
- TypeScript
- Supabase
- Vitest

Mood

Smart, calm, and just a little addictive.

AI Product Buzz Feed

Comforting welcome image with a modern and nostalgic vibe

The internet is noisy. This feed is not.

Welcome to a calmer way to discover AI products.

This project collects new launches, tracks their buzz, and turns the whole thing into a feed that feels less like a document and more like a discovery experience.

What makes it worth a look

- It helps you spot what is actually gaining attention
- It keeps the interface simple and easy to skim
- It makes staying updated feel lighter and more intentional

The vibe

Think of it as a little corner of the web for people who want to know what is next without getting overwhelmed.

Run it

```
npm install  
npm run dev
```

Built with

- Next.js
- TypeScript
